Vendor shall establish with the County whether processed material will be hauled away to an eligible/approved facility or if the vendor will be utilizing the material at a Waste to Energy Facility.

Presented below is the address of the location and the times the site is open to the public.

The vendor shall coordinate all grinding activity with the County Representative and shall provide twenty four (24) hours’ notice prior to initiating grinding activity at the site. The Central Facility site provides daily service to the general public and is open to the public Monday through Saturday. Generally, grinding will not be conducted on Sunday. The vendor may grind on Sunday with special approval from the County Representative. The vendor shall be required to exercise extreme caution when grinding to ensure that there is no negative impact to the citizens utilizing the site. The County will ensure, to the extent possible, that the citizen access is positioned remotely from the grinding operation of the vendor.

When directed by the County Representative to complete grinding at the site, the vendor may choose, while in the area, to grind all or some of the material at the site. This additional grinding shall be coordinated with the County Representative.

While the County shall make a concerted effort to ensure that the raw material is free of any contaminants (i.e. any material that is not yard and wood waste), the County acknowledges that minimal amounts of contaminants may be found in the raw material. In that event, the vendor shall be responsible for separating and removing all contaminants. The County shall supply a container for this separated material and be responsible for the disposal of the separated material.

The Vendor shall haul away all processed material to an eligible/approved facility after a measurement of the processed material has been made. Eligible and/or approved facilities shall be in accordance with all federal, state and local rules and regulations. The Vendor shall provide the name and address of each disposal facility to be used. The Vendor shall not use any disposal facility without the written consent of the Solid Waste Division Manager. The Vendor shall

In the event of failure by the vendor to deliver services in accordance with the contract terms, after oral or written notice, the County may procure the services from other sources and hold the vendor responsible for any resulting additional costs.

In the event a contractor fails to perform a service satisfactorily, the County shall immediately request that the vendor return to that site and correct the services to a satisfactory level. There will be no extra compensation to the vendor for this corrected work.

All of the vendor's equipment utilized for this contract shall be:

1. In good operating condition and provided with all needed maintenance to sustain this condition for the duration of the contract.
2. Properly registered and insured in accordance with the Motor Vehicle Laws of Florida and in compliance with all federal, state and local safety regulations.
3. Subject to inspection and approval by the County prior to the award.
4. In the event of any equipment failure involving fluid leakage or loss of fluid, the fluid shall be contained and reported to the designated County representative immediately. The report shall be followed up with a written detailed account of the damage. Clean up must be completed and area restored to pre-spill conditions by the vendor.

Payment Process

The payment for the grinding and hauling of processed materials shall be accomplished by determining the tonnage of the processed material. Once the tonnage is determined, the established amount is multiplied by the unit price per ton contained within the contract to determine the amount of the payment.

To facilitate the measuring process, the vendor shall utilize the County's certified landfill scales to determine the amount of processed material.

Once a measurement has been established, and the processed material has been hauled away to an eligible/approved facility, the vendor shall then be required to submit an invoice to the County for payment.

Vendor shall submit with the invoice a copy(s) of the scale receipt certifying the tonnage of each load.
